2012.12.10~2012.12.16

Work in this week

- 1、 Read the book “Visualizing Data” about visualizing data with processing. I don’t know some functions in this library although the most examples in first five chapters are very easy.
- 2、 Read the paper “Organizing Search Results with a Reference Map”.

Plan for next week

I will still to improve my skills in visualization and do something helpful to the project I joined.
